- **Concentrated market power:** A few large companies control a vast majority of the market share in many digital industries, giving them the power to set prices, stifle competition, and control the flow of information.
- **Exploitation of consumers:** Big Tech companies often collect and use personal data without the consent of users, and they have been known to engage in deceptive practices to manipulate consumers.

- **Threats to democracy:** Big Tech companies have the ability to influence public opinion and spread misinformation, which can undermine democracy and lead to social unrest.

The New Deal for the Digital Age is a comprehensive plan to address these challenges and ensure that everyone has a fair shot at success in the digital age. The plan includes policies to:

- **Promote competition:** Break up Big Tech companies and implement antitrust laws to prevent the formation of new monopolies.
- **Protect consumers:** Give consumers more control over their personal data and ban deceptive practices by Big Tech companies.
- **Invest in the future of the internet:** Support research and development of new technologies that will promote competition and innovation.

The New Deal for the Digital Age is a bold and ambitious plan, but it is essential to ensure that the digital age benefits everyone, not just a few large companies. By breaking up Big Tech, protecting consumers, and investing in the future of the internet, we can create a more just and equitable digital age for all.

What the New Deal for the Digital Age Will Do

The New Deal for the Digital Age will:

- **Break up Big Tech companies:** Break up the largest tech companies, such as Google, Amazon, Facebook, and Apple, to reduce their market power and promote competition.

- **Implement antitrust laws:** Enforce antitrust laws to prevent the formation of new monopolies in the digital age.
- **Give consumers more control over their personal data:** Give consumers the right to control how their personal data is collected and used by Big Tech companies.
- **Ban deceptive practices by Big Tech companies:** Prohibit Big Tech companies from using deceptive practices to manipulate consumers, such as using fake reviews or hiding important information.
- **Support research and development of new technologies:** Invest in research and development of new technologies that will promote competition and innovation in the digital age.

Why the New Deal for the Digital Age Is Needed

The New Deal for the Digital Age is needed to address the challenges of the digital age and ensure that everyone has a fair shot at success. The digital age has brought about unprecedented technological advancements, but it has also led to a number of challenges, including concentrated market power, exploitation of consumers, and threats to democracy.

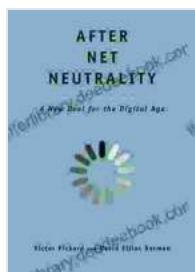

The New Deal for the Digital Age will address these challenges by breaking up Big Tech companies, protecting consumers, and investing in the future of the internet. By ng so, we can create a more just and equitable digital age for all.

How You Can Support the New Deal for the Digital Age

There are a number of ways you can support the New Deal for the Digital Age:

- **Contact your elected officials:** Let your elected officials know that you support the New Deal for the Digital Age.
- **Donate to organizations that are working to promote competition and innovation in the digital age:** There are a number of organizations that are working to promote competition and innovation in the digital age. You can support their work by donating to them.
- **Educate yourself about the challenges of the digital age:** The more you know about the challenges of the digital age, the better equipped you will be to advocate for solutions.

The New Deal for the Digital Age is a bold and ambitious plan, but it is essential to ensure that the digital age benefits everyone, not just a few large companies. By working together, we can create a more just and equitable digital age for all.
