- **Start with a sketch:** It is helpful to start by sketching out the marine creature that you want to paint. This will help you to plan your composition and to get the proportions correct.
- **Use a light touch:** Gouache is a delicate medium, so it is important to use a light touch when painting. This will help to prevent the paint from becoming muddy.
- **Build up layers:** Gouache is a buildable medium, so you can build up layers of paint to create depth and detail. Allow each layer to dry completely before applying the next layer.

- **Use glazes:** Glazes are thin layers of paint that are applied over dried layers of paint. Glazes can be used to add color, create depth, and create special effects.
