## History of Pizza: A Culinary Journey

The origins of pizza can be traced back to ancient times, with its roots in the flatbreads of the ancient Greeks and Romans. However, it was in the vibrant streets of Naples, Italy, in the late 18th century, that pizza as we know it today was born.

Legend has it that a baker named Raffaele Esposito created a pizza for King Umberto I and Queen Margherita of Savoy, using the colors of the Italian flag - red (tomato), white (mozzarella), and green (basil). This patriotic creation, known as the Margherita pizza, became an instant hit and set the stage for the global pizza phenomenon.
